

**Build your own scope to take home and spend more time looking up!**

# Scope Out the Night Sky

**Ages 8 yrs+ / Nov 1 / 6:30-9:30 PM / \$24 per family (up to five members)**

Children must be accompanied by a adult.

- Family-focused astronomy event presented jointly by The Maryland Science Center and Robinson.
- Enjoy a planetarium program, build your own Galileoscope, hold a real meteorite and “tour” the night sky with professional/amateur guides including members of the Howard Astronomical League.
- Each family builds a Galileoscope and every individual receives a star map.

**Registration/Information: 410-313-0400**
